Web Mail

Allows you to log into your email account over the web from anywhere on earth (or possibly beyond).

Assume your web site is: www.mywebsite.ie

Assume your mail username is: john

Assume your mail password is: letmein

URL for Web mail: <http://webmail.register365.com/>

Username: this is composed of part of your web site address and the mail username that you were assigned separated by an underscore such as: [mywebsite.ie](http://www.mywebsite.ie)_john

Password: as supplied e.g.: letmein

Windows Live Mail

Assume your web site is: www.mywebsite.ie

Assume your mail username is: john

Assume your mail password is: letmein

IN Settings: POP3: pop3.reg365.net

OUT Settings: SMTP: mail1.eircom.net

Username: this is composed of part of your web site address and the mail username that you were assigned separated by an underscore such as: mywebsite.ie_john

Password: as supplied e.g.: letmein

Ports

OUT: 25

IN: 110

No SSL

Please note that the outgoing server (mail1.eircom.net) may only work while you are actually in the Republic of Ireland. If outside the country you may need to revert to WebMail or find the address of a local free outgoing server.

Smart Phone

Assume your web site is: www.mywebsite.ie

Assume your mail username is: john

Assume your mail password is: letmein

Incoming Server Settings

Username: this is composed of part of your web site address and the mail username that you were assigned separated by an underscore such as: mywebsite.ie_john

Password: as supplied e.g.: letmein

If Using POP

POP3 Server: pop3.reg365.net

Port: 110

Security: None

If Using IMAP

IMAP Server: imap.reg365.net

Incoming Mail Port: 993

Security: SSL

IMAP Path Prefix: Optional

Outgoing Server Settings

SMTP Server: depends on your broadband service provider.

For Eir use mail1.eircom.net

For Imagine LTE use smtp.imagine.ie

Port: 25

Security: None

Please note that the outgoing server (mail1.eircom.net or smtp.imagine.ie) may only work while you are actually in the Republic of Ireland. If outside the country you may need to revert to WebMail or find the address of a local free outgoing server.
